

## ASAP CRN Learning Lab

Welcome to the **ASAP CRN Learning Lab**, a resource designed to support researchers working with **ASAP CRN** (Aligning Science Across Parkinson's Collaborative Research Network) data.

This site offers a **progressive, modular learning path**: start at the beginning for a full onboarding experience, or dive directly into the sections most relevant to your work.

You can access all tutorials and resources on the [asap-crn-learning-lab](#) Github repository.

---

### Prerequisite: ASAP CRN Cloud Data Access

The ASAP CRN Cloud is the **central platform** for data access, metadata review, and permissions management across the CRN ecosystem. Before beginning any analysis or running Learning Lab tutorials, you must first obtain access to the relevant ASAP CRN data collections through the ASAP CRN Cloud.

Requesting Access via the ASAP CRN Cloud:

1. Navigate to the ASAP CRN Cloud Data Portal:

[ASAP CRN Cloud - Data Collections](#)

2. Click **Log In** in the upper right corner and log in with either a google or microsoft account.
